DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined designed to render them more active and consequently more immediately effective.

The Dock or rather a species of it, now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulas Erysipelas Ulcerous affections, Pimples and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia Piles Affection of the Liver Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the compound will prove part of its efficacious, both as a remedy and a preventative.

The medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and is believed to be in favor with his medical brethren in general to whom he is known.

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Burgin & Co No 143 Middle street, and Edward Mason, No 153 Middle street—only agents for Portland.

10,000 CASES

OF SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS of which proof can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power without reducing it and this is done for the special benefit of those who use it as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other and Six Times Better Safer Surer, and Cheaper than all others. THIS Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sicknesses KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH

KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury. What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails.

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DARTS OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure Rich Healthy Quick Free Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE where the Liver is Swollen and Painful. Strength wasting, Appetite gone. Pulse weak, or Feverish. Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not impair with the patient or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh, and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter, or back in the disease but this EXTIRPATES it wholly from the system—this saves the patient life while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability to cure every Disease Affection, or Pain, which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens, all unite in recommending the use of this invaluable medicine to those put on a change and friends, who are usually affected as the only remedy.

Another says "I think it only fair that I should tell you what a wretch I was before I took your Vegetable Extract, and how well I am now. I feel as if I could do anything to show my gratitude to Dr Hart for restoring me to good health after having been afflicted with Epilepsy in its worst form for more than twenty three years, and my morning and evening prayers of thanksgiving shall continue to ascend to that God who has afflicted me to make me whole."

answered their purpose equally with securing it through James K Polk, and the Kane letter

These leaders have through the Washington Union, already hinted at their wishes that Zachary Taylor would march straight over to their party, and there find a most warm and loving nest They are willing

Zachary Taylor is not John Tyler, and needs no, as he did, the flattering tongue of political managers to sustain him before a free and enlightened people That people have shown their confidence in Gen Taylor, and given him the post of honor

These early efforts of the leaders of the loco party to oppose the in-coming Whig administration should arouse the Whigs to the necessity of giving their hearty, out-spoken support to the administration, and to vindicate the excellencies of their measures The Whigs of the country are sure to be responsible for the exercise of the power of the government It is a new as it certainly is an important position — They must not be incoherent, but alive and active, and give their noble leader a warm and generous and impulsive support, which shall inspire the fullest confidence Thus doing they will see in the practical workings of their principles and measures, advantages to the country and people which will be hailed with pleasure and secure the approbation of all the true patriots in the land

Interesting Lecture, on this Evening.

Mr Holt will deliver a lecture, at Market Hall, on this evening, on Palestine, illustrated by various highly interesting illuminated paintings This lecture was delivered before a large audience in this city on Monday evening last and gave great satisfaction Mr Holt came to this city so well recommended that he was immediately engaged by several gentlemen to deliver a lecture before three of the Sabbath schools The little folks were delighted and enjoyed the illustrations exceedingly much

We wish to have our friends generally understand that the lecture is not only deeply interesting to the youthful mind, but possesses attractions to the maturest intellect and the best read scholar The lover of Biblical and Ancient History will find himself refreshed with that real incidents and with localities of interest The illustrations made by the ancients in the mechanic and fine arts in architecture &c as seen by the works of art which will be described during the lecture, cannot fail to awaken an interest in all minds There is absolutely no roughness in these lectures of Mr Holt which gives them a high character with the learned as well as others

The author of this work is an eloquent and earnest man He speaks with force and plainness He believes that a man should be orthodox in belief and consistent in his life — In his illustrations of the Proverbs he takes right on, permitting no one to mistake his position, and making no effort to conceal his religious views but rather making them the lever of the whole movement

Now in spite of any difference of views we may entertain, we like the design, spirit and character of this work The subjects of the several chapters are treated of in a style of vigorous and manly discussion We give a list of the subjects as best showing the scope of the work

In the treatment of these subjects the author holds up to the reader his accountability in society and to God, and in reference to his relations to the present and eternal world. Those agreeing in religious sentiment with the author will see much of eloquence and power in this work Those differing, cannot but be pleased with the literary character of the work and with its general moral tendency and its high aims

The desire for sudden wealth is always morally injurious, and operates as an effectual check to ordinary wealth. Great wealth suddenly acquired, is seldom beneficial to the possessors or their children

☞ It was rumored in town yesterday, that a person had been arrested in Augusta, as being concerned in, or privy to, the recent bank robbery here Also that on Sunday last, two men were seen travelling with a fat Indian from Augusta to Lewiston, and that they took the card, with a trunk as heavy as two men could lift Efforts have been made to overhaul these men, and for this purpose expresses and telegraphic wires have been put in requisition.

☞ The English newspapers inform us that by recent investigations which have been carried on by the Royal Irish Fisheries Company, it has been ascertained that the Newfoundland fishing banks extend eastward near as the Atlantic to within a hundred miles of the coast of Ireland, and that fish enough can be procured on that coast to supply all the markets in the world

A sad Picture of the present state of Ireland.

Never, was the staff of Irish life, the potato planted more extensively than during this year, and never has it been more utterly destroyed — Starvation is staring in the face of the people with a dreadful glare that appals the hearts of the bravest Their weekly wages were already well nigh swamped by three successive failures of the earth to yield its increase, and now they see the security of them to the very verge of despair The little energy that long and weary years of oppression had left the people, hunger is fast paralyzing Industry has fled and employment is unknown to exist In ordinary times, the wages average from 8 to 12 pence in the north, and from 4 to 10 pence in the south, but now no wages are given, for none is required Travelling through Ireland, especially through the western part of it, is like running an interminable gauntlet of importunities — God bless your honor give me a halfpenny to buy a bit of bread with, for I am very hungry, is the salutation that strikes the stranger ears wherever he goes In the large towns scarcely a step can be taken without meeting with food craving women and children

Plain uneducated begging, without art as expedient is the practice of most, but some appeal to his self interest by offering for sale matches or other objects of trifling value, and others appeal to human sensibilities by singing the former and better times Oh! its a pitiable thing for the hopeless to be forced to make merry, when the light is lost and the heart is sad The work houses are filled to repletion, and outdoor relief is administered with a generous hand Yet the wave of suffering is constantly swelling and threatening, for another summer sun beams upon Ireland to consummate the whole land — The prospect for the coming months is indeed gloomy The country is so destitute as it ever has been of food, and vastly more destitute than ever of the means to buy it The people have no resources at hand to fall back on for relief and from abroad England will hardly be disposed to grant another eight million of pounds for the benefit of reckless public peculators and American charity to Ireland no longer flowing novelty to excite it, it is to be feared, has dispensed its most liberal bounties

Poverty is staring the whole population Even the best classes of farmers who have hitherto battled manfully with adversity now succumb Numbers of them are disposing of their leases at enormous sacrifices, and with their little worldly gear, are seeking an asylum in the great Western Republic Wherever I went, through the South and West of Ireland, the cry almost universally was, "None of us who are able to flee will remain longer in this cursed land" — To aggravate the hopelessness of the prospects, immense numbers are falling away from the temperance pledge, apparently resolved to drown their wretchedness in the Lethe of Alcohol

THE LITTLE MATCH-GIRL.

A NEW YEAR'S STORY

BY THE DANISH POET ANDERSON

It was so terribly cold—it snowed, and the evening began to be dark, it was also the last evening in the year—New Year's Eve. On this cold dark evening a poor little girl went into the street with bare head and naked feet It is true she had shoes on when she went from home, but of what use were they? They were very large shoes, her mother had last worn them, they were too large, and the little one lost them in hurrying over the street as two carriages passed quickly by

One shoe was not to be found, and the other a boy ran away with, saying he could use it for a cradle when he had children himself. The little girl now went on her small naked feet, which were red and blue with cold—she carried a number of matches in an old apron, and held one bundle in her hand No one had bought of her the whole day, no one had given her a farthing Poor thing! She was hungry and benumbed with cold, and looked so downcast! The snow-flakes fell on her yellow hair, which curled so prettily around her neck, but she did not heed that!

The lights shone out from all the windows, and there was such a delicious smell of roast beef in the street—it was a New Year's Eve, and she thought of that! She sat down in a corner between two houses—the one stood a little more forward in the street than the other—and drew up her legs under her to warm herself, but she was still colder, and she dared not go home, she had not sold any matches, or got a single farthing! Her father would beat her and it was also cold at home; they had only the roof directly over them, and there the wind whistled in, although straw and rags were stuffed in the largest crevices

Her little hands were almost benumbed with cold. Ah! a little match might do something, if she dare only draw one out of the bundle, strike it on the wall, and warm her fingers. She drew one out—*rasch*—how it burnt! It was a warm clear flame like that of a little candle, she held her hand around—it was a strong light The little girl thought she sat before a large iron stove with brass balls on the top, she had burned so nicely and warmed so well! Very strange that! The little girl stretched out her feet to warm them too, when the flame went out, the stove vanished—she sat with a stump of the burnt match in her hand Another was struck, it burnt, it shone, and where the light fell on the wall it became as transparent as crape, she looked directly into the room, where the roasted goose stuffed with apples and prunes steamed so charmingly on the table which was laid out and covered with a shining white cloth and fine porcelain service. What was still more splendid, the goose sprung off the dish and waddled along the floor with knife and fork in its back, it came directly up to the poor girl Here the match went out, and there was only the thick cold wall to be seen.

She struck another match. Then she sat under the most charming Christmas-tree—it was still larger and more ornamental than that she had seen through the glass door of the richest merchants, the last Christmas, a thousand candles burnt on the green branches; and motly pictures like those which ornament the shop windows, looked down at her The little girl lifted up both her hands—then the match was extinguished—the many Christmas candles rose higher and higher; she saw that they were bright stars—one of them fell, and made a fiery stripe in the sky 'Now one dies,' said the poor girl, for old grandmother, who alone had been kind to her, but who was now dead, had told her that when a star falls, a soul goes up to God

She again struck a match against the wall; it shone all around, and her old grandmother stood in the lustre, so shining, so mild and blissful 'Grandmother!' exclaimed the little girl, 'Oh! take me with you! I know you will be gone away when the match goes out—like the warm stove, the delicious roast goose, and the delightful Christmas tree!'—and she struck in haste the whole remainder of matches that was in the bundle—she would not lose sight of grandmother and the matches shone with such brilliancy that it was clearer than broad day light Grandmother had never before looked so pretty, so great, she lifted the poor little girl up in her arms, and they flew so high, in splendor and joy, there was no cold, no hunger, no anxiety—they were with God!

But the little girl sat in the corner by the house in the cold morning hour, with red cheeks and with a smile round her mouth—dead—frozen to death, the last evening of the old year

New Year's morning rose over the little corpse as it sat with the matches of which a bundle was burnt She had been trying to warm herself, and they! But no one knew what beautiful things she had seen—in what splendor and gladness she had entered with her old grandmother into New Years joys!

Something of a Curiosity.

A short time ago, there was found at Kittanning, Armstrong County, Pa, a gun barrel in the trunk of a hemlock tree, the barrel passed through the tree nearly horizontally, and almost grown in The barrel was a little more than three feet in length It had a square breech and flared to the muzzle, which is also what is called smell muzzled, differing from any style of gun now in use, or which has been used within the recollection of the oldest inhabitants It had the appearance of being and elegantly finished a little in nights being gold and breech pin pure silver How it came there and how long it has been there are the questions which excite speculation It must have been lost or left there before the tree commenced its growth, but how long before and by whom, no one can tell or surmise, the age of the tree, judging from the number of grains in it, on either side of the heart, is 110 years, and yet strange to say the gun bore but slight evidence of rust or decay When found, the breech was just above the surface of the ground, and the muzzle slightly imbedded in the earth It was loaded with a ball

There's room enough for all.

What need of all this fuss and strife,
Each warring with his brothers?
Why should we, in the crowd of life,
Keep trampling down each other?
Is there no goal that can be won,
Without a squeeze to gain it?
No other way of getting on
But scrambling to obtain it?
O, fellow men, hear wisdom, then,
In friendly warning call—
"Your claims divide, the world is wide—
There's room enough for all!

What if the swarthy peasant find
No fields for honest labor,
He need not idly stop behind,
To thrust aside his neighbor,
There is a land with sunny skies,
Which gold for toil is giving,
Where every brawny hand that tries
Its strength can grasp a living
Oh fellow-men, remember then,
Whatever chance befall
The world is wide—where those abide,
There's enough for all!

From poisoned air ye breathe in courts,
And thoughts tainted alleys,
Go forth and dwell where health resorts,
In fertile hills and valleys,
Where every arm that clears a bough
Finds plenty in attendance,
And every furrow of the plough
A step to independence
Oh, hasten, then, from fevered den,
And lodging cramped and small,
The world is wide—in land beside
There's room enough for all!

In this fair region far away,
Will labor find employment—
A fair day's work, a fair day's pay,
And toil will earn enjoyment
What need, then, of this daily strife,
Where each wars with his brother?
Why need we, through the crowd of life,
Keep trampling down each other?
From rags and crime that distant clime
Will free the pauper's thralls
Take fortune's tide—the world so wide
Has room enough for all!

For the Whig and Courier.

Prayer of a Wife.

Great source of life and light!
List while I pray;
Oh guide my steps aright,
Both night and day

Oh smile upon me now
With rays divine,
While I breathe a solemn vow
Upon thy shrine

Though hard my lot while here,
I'll not repine,
If thou my prayer to hear
Will kindly deign.

Father what earthly bliss
Thy will denies,
Oh by thy sovereign grace
Save o'er he dies.

And thou proud, wayward heart,
I will resign,
And all I love on earth—
All shall be thine.

COPY OF MR ELIJAH EATON'S CERTIFICATE TO DR JAYNE

This certifies, that immediately after having attended my brother, who died of Consumption in March, 1842, I was taken sick with the CONSUMPTION OR LIVER COMPLAINT, and was reduced so low with the disease that for four years I was unable to attend to my business, either at home or abroad being for the most time confined to my bed During the above period of time I had constantly employed the REGULAR PHYSICIANS and Medicines, to the amount of $300, without receiving any benefit therefrom In July 1845, I commenced taking DR JAYNE'S MEDICINES, and have taken them more or less ever since, and believe that it was by persevering in their use, that I can now truly say that I have completely recovered my health I believe that JAYNE'S SANATIVE PILLS and EXPECTORANT are the best Family Medicines now in use

I reside in Springfield Otsego County, N Y, and carry on a Furnace and Machine Shop in that place, and am not interested in any manner in the sale of the above medicines, and made this certificate for the benefit of those afflicted ELIJAH EATON

DR CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the Age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease,* for they weaken the vital energies of the already prostrated system, while under the strengthening life giving, vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery the exhausted patient and weakened sufferer is restored to former health, strength elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application,* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system equalize the circulation of the blood, promote the secretions and never do the slightest injury under any circumstances Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which, by their action on the nerves and muscles of the stomach afford *temporary* relief, but which leave the patient in a lower state and with injured faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer, at once the worse symptoms of an attack, and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will set on the positive element of the Belt thereby causing a Galvanic circulation which will pass into the nerves and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

Could be given, sufficient to fill every column in this paper We make a few selections The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation —

SIDNEY, New Jersey, July 13, 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men, but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe Chronic Rheumatism, which for year after year caused me indescribable anguish In the severer paroxysms the skill of my physicians sometimes afforded me great relief, but this relief was only temporary Farther in the winter of '45 and '46 in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis which soon became so severe as to require an immediate suspension of my pastoral labors My nervous system was now thoroughly prostrated and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul lias ever found the highest of enjoyments

But reasoning from effect to cause I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopeia there seemed to be no remedial agent which could reach and recuperate my Nervous System, every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions and (though with very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID This was in June, 1846 TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract My Dyspepsia has *never returned,* the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection *is entirely cured* Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, WITH MARVELLOUS RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,
ROBERT W LANDIS

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of DR CHRISTIE'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate with perfect ease and safety In many cases the sensation attending their use is *highly pleasant and agreeable* They can be sent to any part of the country.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

Jacob Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is a gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I was suffered terribly for nine years with the Rheumatism, to such a degree that I could not walk without a cane I had lost my mind I attribute pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County.

Fordham, August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years old, who has been subject to fits, ever since she was two years old almost every thing for her, but without success, at last although we could find no common fits in your circulars for cases like hers, we thought, as she was in very delicate health we would give it a trial and your Sarsaparilla, and we very glad we did, for it not only restored her strength but she has had no fits out of the fits, to our great pleasure and surprise She is fast becoming rugged and healthy, for which we feel grateful. Yours respectfully
JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Female Complaints, Barrenness, Prolapsus Uteri or Falling of the Womb, Destrousness, Fits Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or Incontinency, discharge thereof, and for the general prostration of the system—no matter whether the result of inherent causes, or causes produced by irregularity Illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and nervous disorders, at once become robust and full of energy under its influence It immediately connects the nervous powers of the mind in time what is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with healthy offspring

TO MOTHERS AND MARRIED LADIES

Dr Townsend's Sarsaparilla is now expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life,*" should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at the time of life This period may be *delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It purifies the whole system, renews pain mently the natural energies—by removing the impurities of the body, not after stimulating as to produce subsequent relaxation which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system, and relieving the sufferings attendant upon a child birth ever discovered It invigorates both the mother and child, promotes gain and disease, increases and enriches the food—those who have used it think it indispensable It is highly useful both before and after confinement, as it prevents disease attendant upon Childbirth as Costiveness, Cramp, Swelling of the Feet, Depondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of our medicines is, it is always safe, and the most delicate use it most successfully, only few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Paints, and a variety of preparations generally in use, when applied to the face, very often spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in some compositions its own production in the "thousand fold devices," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold and impure, she is not beautiful If she be brown or yellow, and there be pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the season why the northern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females,* &c., &c, and have copied the bills and circulars which relate to the complaints of women, word for word—either men who put up medicine have made the great success of Dr. Townsend's Sarsaparilla in female complaints in females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c, are injurious to the health, as they contain powerful drugs, and undermine the constitution.

☞ Beware of counterfeits.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house (Hampton) mentioned.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores; have taken only four bottles, It took them away, for which I feel myself under great obligation. Yr respectfully,
ISAAC W. CRAIN, 106 Wooster st.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we repudiate quackery, we are always pleased to give credit to that which is truly useful, and to give information which may benefit others A few days ago a lady from Norway, Me., came into our office in comfortable health, whom we did not expect to see again on earth We received a letter a few weeks since, from another brother resident in the house with him, saying that he was confined to his bed and could not hope for a continuance of his time Judge then of our surprise when we saw him enter our office He has a good cough remaining, as it would be natural that first should live, until he has had further time for acquiring strength of lungs But he is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully will speak what medicine has been the instrument of the good work

Boston Feb 16, 1847

"Dr D F Bradlee—Sir—I cannot refrain from saying a word to you in commendation of "Buchan's Hungarian Balsam of Life," Here is a plain statement of facts in relation to my case and if they are of any service in inducing the sick to seek relief at the source from whence I obtained it, I shall be thankful

My residence is Norway Me. Three years ago last fall I took a violent cold which left a cough of the most aggravated kind, accompanied by a severe pain in the left side Last June I had become so feeble that I was obliged to quit all work and was confined to the house until about four weeks since. During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me up as past recovery But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle This gave me instant relief, and six bottles have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation

☞ BE WISE TO-DAY

Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE If you have any symptoms above described, heed the time
